Data Sheet Survey of Hispanics-Latinos in USA - 2024

Geographic Coverage	10 states with the highest proportion of Latino voters registered to vote in the upcoming presidential election: New Mexico, California, Texas, Arizona, Nevada, Florida, Colorado, New Jersey, New York, Illinois
Sample Frame	Phone and email lists of Latino/Hispanic men and women living in the locations defined above, registered to vote, between the ages of 18 and older.
Sample Size	The study designed 1000 effective interviews; the results of effective surveys was 1032. The sample size implies a margin of error +/-3.1% with a 95% confidence level.
Data collection	A hybrid methodology - CATI and WEB-BASED was used to achieve a higher response rate efficiently, as well as a greater representativeness of all the target groups of the study. Proportions of the Web-based f (70%) and CATI (30%). The sampling frame of the live telephone surveys was the lists of registered voters with a response rate of 17%. The web-based surveys included independent panels, social media ads, social media handles, and phones with a previous WhatsApp message. In all cases, the corresponding survey link was provided. 50% of the people who started the survey via Web completed it effectively
Field time	The Survey was conducted in 9 days, from July 3 to 12, 2024
Effective Sample description	**Gender**: Men = 47.6% Women = 51.5% **Registered** to vote in USA=100% *Ages: 18-24 = 14.2% 25-34= 18.8% 35-44=20.5% 45-54=19.3% 55-64=12% 65+=15.3% ***State of Residence:** New México 17.1% Florida 14.9% Texas 12.5% California 12.4% New Jersey 9.4% Arizona 9.2% Nevada 7.9% Colorado 6.4% New York 5.1% Illinois 4.9% **Weighted*
